ACKNOWLEDGEMENTS

CISBAT can only exist thanks to the patronage of the Swiss Federal Office of Energy and other donors. We are very grateful for their continuing support.

We also thank the Swiss Competence Center for Energy Research “Future Buildings and District”, supported by the Swiss Federal Commission for Technology and Innovation, for their partnership and funding of the Outreach Event.

Our scientific partners from Cambridge University, the Massachusetts Institute of Technology and the Swiss Chapter of the International Building Simulation Association as well as the members of the CISBAT scientific committee and the session chairs have enthusiastically supported the conference and ensured its quality. We would like to express our sincere thanks for the time and effort they have spent to make it a success.

Behind the scenes, we have received much competent support from the EPFL administration as well as from our caterers and diverse suppliers. We herewith express our sincere thanks for their efficient and friendly collaboration.

The active and uncomplicated help of all staff members of the Solar Energy and Building Physics Laboratory was much appreciated. Special thanks go to our technical and IT staff whose professionalism and excellent organisation was essential at every stage of preparation and during the conference.

Finally, we cordially thank all speakers, authors and participants who have brought CISBAT 2015 to life.

Prof. Dr J.-L. Scartezzini
